*Election/Restrictions*

1. Applicant's election without traverse of claims 1, 3, 5, 7-10, 12, 14, 16, 18 in the reply filed on 8-24-04 is acknowledged.
2. This application contains claims 2, 4, 6, 11, 13, 15, 17, 19-21 drawn to inventions nonelected without traverse in Response to Election/Restriction filed on 8-24-04. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

*Information Disclosure Statement*

3. The information disclosure statement, EP1122876, filed 3-23-04 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered.

***Claim Objections***

4. Claim 1 claims a system (an inverter maintenance system). However, the claimed limitations (a step; line 7, 12) direct to “method” claiming languages.

***Drawings***

5. The drawings are objected to because proper legends were missing. A proposed drawing correction or corrected drawings are required in reply to the Office Action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 2645

6. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrase "said interface" is not clearly defined. Claim 1 claims "interfaces" (plural; line 2 of claim 1). It is unclear the claimed "said interface" (singular) refers to which particular interface among the "interfaces" claimed in claim 1.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Art Unit: 2645

7. Claims 1, 3, 5, 7-10, 12, 14, 16, 19 are rejected under 35 U.S.C. 102(e) as being anticipated by SEW-EURODRIVE GMBH & CO (EP 1122876).

For claims 1, 3, 5, 7-10, 12, 14, 16, 19, SEW-EURODRIVE GMBH & CO teaches on page 2 column 2 line 16-48, page 3 column 3 line 25-35, page 3 column 4 line 30-48, page 4 column 6 line 18-55, page 5 column 7 line 2-25, and Fig. 1, an inverter maintenance system with a mobile communication device to transmit abnormal information to a support server. The support server in turn analyzes the abnormal information and transfers solutions back to the mobile communication device.

### *Conclusion*

8. The prior art made of record and not replied upon is considered pertinent to applicant's disclosure.
